

Putt Nylon Artificial Turf

Product Overview

Putt Nylon Artificial Turf by Graphic Floors is a premium, low-profile synthetic turf designed for trade shows, events, brand activations, and temporary installations. Its smooth putting-green surface and durable nylon construction make it ideal for high-traffic environments requiring a polished, professional appearance.

Product Specifications

Specification	Details

Putt Nylon Size Guide:

The number of turf pieces shipped depends on your booth size and the 12 ft roll width selected. Turf is precision cut to minimize seams and material waste while fitting your layout.

Performance Benefits:

- Smooth, consistent putting surface
- Low pile height for easy equipment movement
- Durable nylon fiber construction
- Custom logo and graphic inlays available
- Fast installation and removal for events
